# EdgeSeries™ Reels

## Making the Best, Better.

The Toro EdgeSeries represents the next generation of cutting quality and durability, with enhanced cutting edge retention. In addition to new reel material, the EdgeSeries incorporates a new reel geometry design, and changes in the manufacturing process that result in a more accurate cut. The innovative design and manufacturing changes to the reel and bedknife provide a better after-cut appearance and a reduction in required maintenance.

The EdgeSeries provides multiple benefits that require less labor to maintain the reel and bedknife, and leave your greens and fairways looking their absolute best.

## FEATURES

### New Reel Blade Material

Advanced material reduces abrasive wear in the EdgeSeries, which leads to longer edge retention, resulting in fewer reel-to-bedknife adjustments and less grinding.

### Modified Geometry

- Improvements to reel helix (blade twist)
  - » Crisper and cleaner cut, with better grass collection
- Change to the bedknife topgrind angle resulting in a smaller land area between the reel and bedknife
  - » Maintains the cutting edge longer
  - » Less power required
- Change in the reel blade rake angle
  - » Better edge retention and cleaner cut

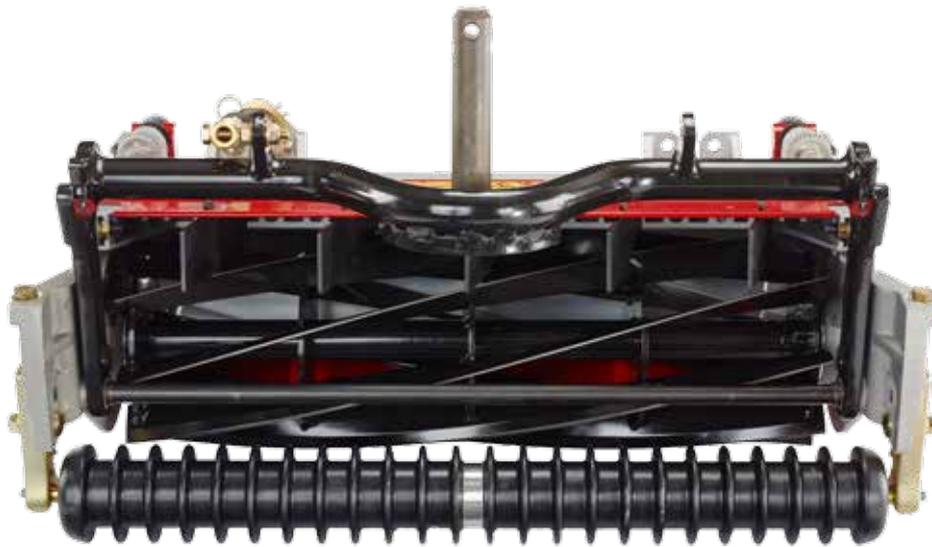

### Improved Manufacturing Process

Incorporating changes in the manufacturing process produces more consistent reel dimensions, resulting in improved reel-to-bedknife contact across the width of the reel. This simplifies the set up and provides a more consistent cut.

### Low-drag Seals & Low-friction Bearings

Before, EdgeSeries was only available on select cutting units models, but now it is standard on all Greensmaster DPA cutting units and all fairway cutting units that utilize the low-drag seals and low-friction bearings. For 2016, this will include all fairway units except the Reelmaster 3100, 6700, and 7000.

8-blade

11-blade

## REELMASTER® CUTTING UNITS

NEW MODEL	DESCRIPTION	REPLACES
03621	13cm (5") DPA 8-blade (Forward-swept)	03634 03694
03623	13cm (5") DPA 11-blade (Forward-swept)	03635 03695
03638#	18cm (7") DPA, 8-blade (Radial Reel)	03696
03639	18cm (7") DPA, 8-blade, (Forward-swept)	03696
03641	18cm (7") DPA, 11-blade (Forward-swept)	03693 03697

## GREENSMASTER® CUTTING UNITS

NEW MODEL	DESCRIPTION	REPLACES
04290	Flex 2120, 11-blade	04251
04292	Flex 2120, 14-blade	04252
04289	Flex 1820, 11-blade	04253
04291	Flex 1820, 14-blade	04254
04651	TriFlex, 8-blade	04613
04653	TriFlex, 11-blade	04614
04655	TriFlex, 14-blade	04615
04652	GR3150/3250, 8-blade	04618
04654	GR3150/3250, 11-blade	04619
04656	GR3150/3250, 14-blade	04624

# Recommended for higher cutting heights and non-fairway applications.
