COMMERCIAL IRRIGATION

COMMERCIAL IRRIGATION

INNOVATION FOR THE RACING INDUSTRY

Professional greenkeepers and curators around the world rely on Toro irrigation to maintain the most challenging turf field environments. Toro technology goes the extra mile when it comes to keeping turf in excellent condition, race after race, year in, year out.

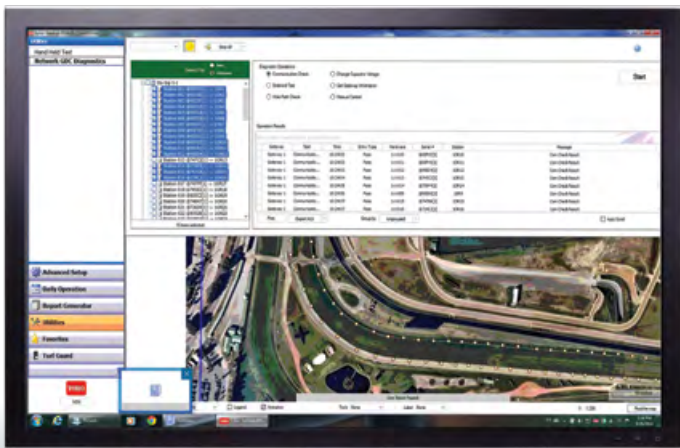

Driven by excellence and innovation Toro aims to support the racing industry from the ground up with leading edge solutions for turf management. Supported by leading race courses worldwide, Toro is changing the way the industry manages its turf in more ways than one.

LYNX® CENTRAL CONTROL SYSTEM

BETTER INFORMATION FOR BETTER DECISIONS

Lynx empowers you to take quick, accurate action to effectively control and manage your course irrigation, surface condition and aesthetics.

Designed, built and supported by Toro – the Toro Lynx system is designed to meet the challenges and changing priorities turf managers face daily. This power control system conveniently combines all essential irrigation information into a single, intuitive interface to enable you to easily control your irrigation system from your smart devices. Whether you're at home, on the road or out on the race course, you can have full access and control of the system – effortlessly and securely.

LYNX SMART MODULE 2-WIRE CONTROL SYSTEM

Innovative technology to provide an irrigation solution that is reliable and efficient. Using a 2-wire path to communicate to buried control units, the system reduces the costs associated with traditional valve wire bundles and provides a solution that is vandal resistant, easy to install and easy to expand.

FEATURES & BENEFITS

- All system components are below ground which helps maintain course aesthetics
- Have the lowest cost system option due to the reduced amount of wire
- Faster 2-way communication and automated diagnostics ensure system integrity
- Have the best-in-class broadband lightning protection
- Expand the system easily by adding modules to the wire path
- Lynx Smart Hub provides additional features and benefits

Toro INFINITY® sprinklers can be ordered with integrated LSM modules.

LYNX® SMART HUB

Lynx Smart Hub field controller adds the security, programmability and sensing capabilities to the benefits and simplicity of the Lynx Smart Module 2-Wire Control System. Available in wall mount and pedestal configurations, it simplifies installation and maintenance by segmenting the system into manageable areas. Provides fast automated diagnostics and creates a connection point for soil, flow and status sensors to empower you to address the unique challenges and changing priorities you face every day.

INFINITY™ SERIES SPRINKLERS

Toro INFINITY Series Sprinklers are designed to save you time and with your track's future in mind, the patented SMART ACCESS design enables you to add new technology for decades to come and provides top accessibility to all critical components including integrated 2-wire module using only a screwdriver. With the industry's largest selection of high performance nozzles and TruJectory adjustment, the INFINITY 35-6/55-6 Series allows you to put water precisely where you want it for maximum distribution uniformity with throw of up to 30.5m.

690 SERIES SPRINKLERS

For over 40 years the 690 Series has set the standard for performance, durability and reliability in gear drives for wider tracks, eliminating the need for equipment on the racing surface. Pressure regulating for even water distribution over large areas with throw of up to 32.9m, the purpose built gear drive mechanism provides durability without heads losing arc alignment. All internal components are serviceable from the top of the sprinkler for time and labour costs savings.

690 Series

VP3 VAC

VP3 Nozzle

VP3 SERIES SPRINKLERS

Boasting a throw of up to 54m, the piston drive VP3 sprinkler is the ideal solution for watering chutes while keeping equipment off the track, which helps preserve safety and maintain field aesthetics. The unique nozzle design minimises water turbulence, which helps to maintain stream exit speed at the nozzle outlet. Resulting in higher radii at reduced flows. Electric valve in head models feature ON/OFF/Auto control at the rotor, and provide individual management of each rotor to help ensure they perform at their highest level of efficiency.

TORO® PROFESSIONAL SERVICES

National Support Network, Toro® NSN®

Combined with Toro's powerful field control options and unmatched NSN support, you can count on Toro to deliver a total package of irrigation benefits. NSN Connect provides remote irrigation control and easy mobile access - anytime, anywhere. You will have the ability to access activity logs, transfer files and print documents from a remote location. NSN Connect Plus allows remote monitoring and proactive support of your system, exclusive to current NSN subscribers and Lynx Apps enable you to control your irrigation system from your smart devices. Our knowledgeable staff is available to assist you over the phone 24/7, every day of the year for added peace of mind.

Technical Support

Our technical support team is highly skilled at what they do. From helping superintendents commission controllers to troubleshooting complex system issues with consultants, the support team provides years of irrigation experience that you can count on.

Toro Financing Solutions

Whether choosing maintenance equipment or irrigation components for a renovation, your Toro representative has experience and is trained to help you look beyond the simple financing of one item to the next, to looking at your longer-term equipment and economic needs. It's not a one size fits all plan. Looking at the total cost of ownership will help you find the right acquisition solution for your course's specific needs. Toro has partnered with the premier financing companies in the industry to meet your needs.

When We Say Count On It, We Mean It

Every product that carries the Toro® brand is backed by over 100 years of history, innovation and timeless dependability. We never stop investing in research and development to give our customers the latest features. That's why Toro is one of the best-known, most trusted brands in the business. We also stand behind our products with a global network of knowledgeable dealers for parts and service support.

Real People. Real Support.

Smart Features. Proven Dependability.

Count on it.
